PART D

Models

TRADITIONAL MODEL

Fixed rate is specific to service needs and a budgetary constraint determines the frequency of a clean store. Limited service frequency falls short of addressingtraffic demands and challenges of winter weather. The Hybrid model will address these shortfalls by creating a partnership in which maintenance could be available whenever a client need arises.

HYBRID MODEL

Client offer includes:

• Formation of partnership.

- Personalized and customized system.
- No initial investment required on machinery.
- Training provided to store personnel to operate machinery.
- Brand new scrubbers provided.
- Hassle free scrubber maintenance and repair.

HYBRID MODEL

Client benefits:

• Ongoing interaction that truly addresses client's needs.

- A unique solution to crucial daily maintenance needs.
- Engage staff participation and promote behavioral changes and effect results.
- Greater flexibility and control in times of bad weather (Rain or Snow).
- Expert guidance from an experienced company.
- Increased frequency compared to current cost of two visits a week.
- Added value achieved through increased cleaning frequency.

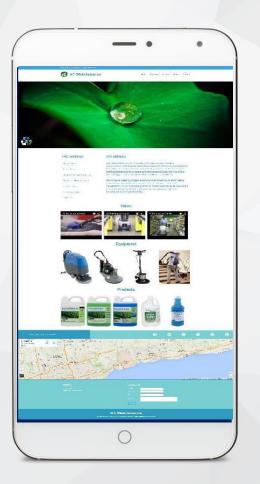

VALUE & COST COMPARISION

Your Savings \$ 1,320 = 7.93% labor allowance credit

Your Savings \$3,432 = 17.5% labor allowance credit
